Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. Claims 1-24 are presenting for examination.
2. The applicant is advised that claim 15 should depend on claim 13.
3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claim 1-4, 6-16, and 18-24 are rejected under 35 U.S.C. 102(e) as being anticipated by DeLaCruz (US Pat. No. 6,999,989).

5. As to claim 1, DeLaCruz shows in Figs 1-2 & 4, a method for managing electronic mail return receipts using audio-visual notification (see col 1, lines 59-60, col 2, lines 58-63) comprising the steps of:

- initiating an electronic mail return receipt operation, see col 1, lines 38-41, col 2, lines 21-26, col 4, lines 13-14;
- detecting a message at the receiver destination 150, see col 1, lines 41-46, col 2, lines 38, col 3, lines 10-16, col 4, lines 8-14;
- transmitting a return receipt back to the message initiator 100, see col 1, line 51, col 2, lines 44-46, col 3, lines 40-43, col 4, lines 24-26;
- capturing the return receipt at the message initiator location 130, see col 2, lines 44-46, col 3, lines 40-43;
- identifying the specific receiver destination (the recipient 150) transmitting the return receipt, see col 2, lines 44-46, col 3, lines 40-43; and

Art Unit: 2157

- displaying the specific receiver destination to the message initiator 100, see col 1, lines 35-37, col 2, lines 44-46, col 3, lines 40-43.

6. As to claims 2 & 4, determining the type of return receipt notification display (video of the recipient 150), see col 1, lines 38-41, col 2, lines 21-26, col 4, lines 13-14.

7. As to claim 3, creating a queue at a receiver destination 160 and queuing a return receipt notification in response to the detection of the opening of a message, see Fig 3, col 3, lines 64-67, col 4, lines 1-7 (The return receipt would be queued until the recipient stratify with his video).

8. As to claim 6, creating a list of recipients of the original message at the message initiator location 110, see col 2, lines 21-26, col 3, lines 1-4.

9. As to claims 7-8, inherently identifying the original message at the message initiator 110 to match the sender of the notification to a corresponding recipient, and whether the original message had multiple receipts, see col 1, lines 35-37, col 2, lines 21-26, lines 44-46, col 3, lines 1-4, lines 40-43.

10. As to claims 9-16, and 18-24, the claims are similar in scope to claims 1-4, and 6-8, and they are rejected under the same rationale.

Therefore, it can be seen from paragraphs 5-10 that DeLaCruz anticipates claims 1-4, 6-16, and 18-24.

Art Unit: 2157

11. Claim 5 & 17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

12. The prior art of record does not teach the return receipt notification display procedure comprises highlighting a recipient of the message at the message initiator location when a recipient has received and opened the message (claims 5 & 17).

13. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

14. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Moustafa M. Meky whose telephone number is 571-272-4005. The examiner can normally be reached on flex.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ario Etienne can be reached on 571-272-4001. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
